

# Mer Soleil Equestrian Ranch

Six website directions and twelve logo concepts

Each website concept is a working page built with your photos and the colors of your current emblem. This booklet shows each one on a laptop and on a phone. Notice which one feels most like your barn, and which headline sounds most like you. Mixing is welcome: the layout from one, the logo from another.

NEXT STEPS

# What happens next

**1**

## Pick a direction

One website concept, or a mix. Plus your top three logos.

**2**

## Answer a few questions

Names, photos, what's included in each board type, lesson details. Short answers are fine.

**3**

## We build it

About a week from your answers to a live site, with one round of changes before launch.

## Three quick ones to think about before we meet

1. Is the name "Mer Soleil Equestrian Ranch" final, or "Mersole Equestrian"?
2. Who built mersoleilequestrian.com, and are you still working with them?
3. Could you send 15–20 more photos? Barn aisle, arena, lounge, a lesson, you riding.

These are concepts, not the finished site. Highlighted placeholders, like testimonials and "to confirm" notes, are waiting on your answers. No facts, reviews or credentials were invented.
